

Ortin Laboratories Ltd.

An ISO 9001 Certified Company

Readying remedies for the healing profession

**Ortin Laboratories Limited**, trusted source for Quality was established in the year 1986 as a Private Limited Company to offer Quality drugs and medicines to heal the suffering mankind. In the year 1996, Ortin has become a public limited company manufacturing the complete range of pharmaceutical formulations which include Tablets, Capsules, Syrups, Dry Powders & Ointments.

In the year 2010 merged with an established drug intermediate unit majorly involved in preparations of intermediates of anti-retrovirals and lipid lowering agents.

From testing of raw materials to finished products, Ortin has laid down various in-house and pharmacopoeial specifications for each step. All the systems were thoroughly standardized and validated.

Raw materials were thoroughly tested for microscopic & macroscopic specification. All the finished products viz., tablets, Capsules, Syrups, Powders and Ointments are tested thoroughly. Ortin is well equipped with a separate microbiological laboratory for testing the microbial contamination in all the products of formulation.

To ensure quality, our "Quality Control" departments at each unit (Formulation & Drug Intermediates) are well supported with most sophisticated, ultra modern and state of the art instruments like:

Gas Chromatography, HPLC, FTIR, UV Spectrophotometer, Photo fluorometer, I.R., Polarimeter etc.

Ortin was honored as registered supplier of drugs and medicines with the most reputed central, State & Quasi-government organizations and Institutions of India.

Ortin's formulations unit has been certified as an ISO 9001:2000 company by the internationally recognized Quality Management Certification Body, the national Quality Assurance, U.K. and the drug intermediates unit has been certified as an ISO 9001-2008 company by Det Norske Veritas, The Netherlands.

Ortin is contemplating an entry into the OTC segment as part of its long-term growth strategy. It is channeling its efforts towards building an overseas marketing network in order to enhance exports to third world countries. Ortin proposes to launch innovative Biotechnology products in orthopedic and dental segments and also a GMP bulk drug unit to manufacture various types APIs.

The quality of the products was checked at every possible step. This allows us in eliminating any errors in production. An Average of 25 analytical procedures were carried out before relating any formulation batches. The Quality Assurance department with technically qualified professionals taking utmost care in delivering high quality products as per GLP/GMP specifications.

At Ortin, Quality means error free products and satisfied customers.

### Key elements of Quality Assurance

- Quality is the hallmark of Ortin
- Leadership management
- Training and self Improvement program
- Formula cards, batch manufacturing records, standard testing specifications and standard operative procedures.
- Validations
- Stringent control on raw materials, in-process, intermediates and finish products.
- Complaints
- Quality management system
- Internal & external audits

With our expertise in contract manufacturing, we will be able to exclusively handle your manufacturing requirements. Our equipment is capable of manufacturing various types of products based on your needs. Ortin is also equipped with customized equipment, designed and built for different volumes, as per the requirement.

Tie-ups: contracts as well as loan license basis, with Multinational & Indian companies looking for a reliable & high quality manufacturing setup.

Setting up new pharmaceutical formulation manufacturing facilities for multinational marketing companies.

## Marketing/Distributors Branded Products

We require consignee sales agents, superstockists for all branded products for market/ sale in states across India.

## Joint Ventures

We can associate with pharmaceutical/ cosmetic home care firms to manufacture & market their products in India.

## New Ventures

We can setup additional dedicated facilities for the manufacturing of new products /new lines on mutually acceptable and beneficial terms.

## Private Label Manufacturing

We can manufacture personal care, skin care, home care, pharmaceutical etc., under private label arrangement.

## Trading

Ortin presently trading in the Hyderabad & Madras Stock Exchanges shall shortly commence its trading with the Bombay Stock exchange.

## Government Liaisoning

We are interested in registering /supplying to various Government institutions and Hospital in India. This is an invitation to people having vast experience and good contracts with such institutions/Hospitals

## Exports

We are interested in collaborating with exporters who want high quality formulations to be exported to other countries.

We are interested in having our products registered in various countries. We require agency representation. In addition to the list of products, we can manufacture and supply several other pharmaceutical formulations.

## Formulations

- Anti Diabetics
- Anti Allergics
- Anti Anginal & Cardio Vascular
- Sedatives & Tranquilisers
- Anti Helmenthetics
- Analgesics & Antipyretics
- Anti Biotics-Quinolones
- Anti Biotic-Pencillins
- Antifungal & Antibiotics
- Anti Biotics & Cephalosporins
- Anti Biotics – Macrolides
- Chemo Therapeutics
- Antacids & Anti ulserants
- Anti spasmodics
- Calcium preparations
- Iron preparations
- Anti Arthritics
- Protein supplements, Enzymes
- & Vitamins
- Psychiatry
- Appetizers
- Gynaec
- Anti Retrovirals

## Biotechnology Research Products, Kits & Services

- Plasmid DNA Purification Kit
- Genomic DNA Purification Kit
- cDNA construction
- Expression and Purification of Proteins in Bacterial/Mammalian Cells
- DNA Sequencing
- PCR Primer synthesis
- Gene specific RNAi design and synthesis
- Peptide Synthesis
- Poly Clonal Antibody Production

## Drug intermediates

### Pioneer in manufacturing

- Anti retro viral
- Anti Diabetics
- Analgesics & Antipyretics
- Anti Biotic
- Antifungal & Antibiotics
- Chemo Therapeutics
- Antacids & Anti ulserants
- Anti malarial

### Specialist in the following reactions

- Grignard
- Diborane
- Alkylation
- Hydrolysis
- Condensation
- Acylation
- Lithiation
- Alkalimetal
- Pressure
- Friedel reaction
- Birch Reduction
- Reduction
- Substitution

### Grignard & alkali metal products

- n-butyl lithium
- lithium h.m.d.s.
- n-hexyl lithium
- t-butyl lithium
- lithium diisopropylamide
- lithium tertiary butoxide
- iso propyl lithium
- methyl lithium
- phenyl lithium
- phenyl magnesium bromide
- iso propyl magnesium bromide

### Intermediates of following APIs

- Ciprofloxacin
- Tramadol
- Efavarenz
- Lamivudine
- Lopinavir
- Fluconazole
- Triclabendazole
- Omeprazole
- Pantapazole
- Lumefantrine
- Voriconazole

### Fine chemicals

- (IPTG)
- 5-bromo-4-chloro-3-indolyl- beta-D-galactopyranoside (X-gal)
- 5-Acetylthiophene-2-carboxylic acid
- Carbonic Acid,4-Nitrophenyl-5-thiazolyl methyl ester(NCT)
- n-methyl imidazole-2-carboxaldehyde
- 2,6-bis (trifluoromethyl) benzoic acid
- 7-hydroxy-4-methyl coumarin
- Benzophenoneimine
- 2-bromothiazole
- Pyridine 2-ethanol

- phenyl magnesium chloride
- n-butyl magnesium chloride
- n-butyl magnesium bromide
- iso butyl magnesium bromide
- sec-butyl magnesium chloride
- ter-butyl magnesium chloride
- allyl magnesium chloride
- allyl magnesium bromide
- ethyl magnesium bromide
- lithium iso propoxide
- benzyl magnesium chloride
